6th Edition, Hybrid Conference & Expo on

ADVANCEMENTS IN LASERS, OPTICS, AND PHOTONICS

October 1-3, 2024

Naples, Italy

Invitation

Linkin Science welcomes you all to the 6th Edition of Hybrid Conference & Expo on Advancements in Lasers, Optics, and Photonics 2024 to be held during August 12-14, 2024. We anticipate your participation at Laser, Optics, and Photonics Hybrid event. The conference will catalyzes ideas and enhance new interdisciplinary collaborations.

Laser, Optics & Photonics are rapidly expanding by playing a prominent role in medical and engineering fields. This conference is a platform to Industry, Academia, Researchers, Innovators to come together to discuss the research activities, advancements, ideas and exhibit laser, optics & photonics products.

Laser, optics & photonics is rapidly gaining attraction across a range of industries, from agriculture to water treatment to energy storage. Today, laser, optics & photonics is one of the most innovative, cutting-edge areas of scientific study and it continues to advance at staggering rates. Laser, optics & photonics have made some of the greatest advancemets in pediatric optometry & skin laser resurfacing. Scientists in the laser, optics & photonics fields are focused on determining how future drifts in laser, optics & photonics. While laser, optics & photonics are their recent application & trends in it, the benefits are clear with it. Scientists and engineers are focused on applying laser, optics & photonics to resolve these issues. Laser, optics & photonics have been hailed as the next big thing for decades, but it is only now that it is truly becoming a reality in the medical device space.

Our exciting scientific program will be presented over the course of three days in various session types Keynote Presentations, Oral sessions, Young research forum, symposia, Poster sessions and workshops.

Regards
Scientific Committee

Conference Sessions

- Optical physics, engineering & imaging
- Applications & trends in laser, optics & photonics
- Biomedical Optics
- Laser & photochemistry
- Optics and Photonics impact on Defense System
- Laser devices
- Quantum science & technology
- Photovoltaic System
- Quantum optics & optomechanics
- Optics in astronomy & astrophysics
- Biophotonics
- Optoelectronics
- Laser Nanotechnology
- Pediatric optometry
- Laser plasma physics
- Nano photonics and optics
- Lasers for Raman Spectroscopy & Microscopy
- Silicon Photonics
- Optical Fibre Sensors
- Nonlinear optics
- Terahertz Optics and Photonics

Conference Highlights

- Best Poster Awards
- Opportunity for Workshops/ Symposiums
- Young Research Forum (YRF)
- Great opportunity for Scientific Networking
- Opportunity to become a Sponsor/ Exhibitor

Global Excellence Awards $2500

Participants desiring to be considered for one of these awards need to specify their interest after their submission of the required abstract. Selected participants will felicitation certificates under three categories.

- Outstanding Submitted Abstract
- Best Poster Presentation
- Young Researcher Award
- Best Research of the conference as evaluated by the Scientific
- Committee to encourage budding scientists/ researcher.

Decisions will be made based on evaluation of the submitted abstract by the Scientific Committee. We want you to grab this opportunity and participate in the conference...!

Previous Editions:

Global Congress on Laser, Optics and Photonics (2023):

Linkin Science has successfully completed 5th Edition of Advancements on Lasers, Optics and Photonics as a Hybrid Conference during October 2-4, 2023. We thank all our expertise Scientific Committee Members and speakers who offered a constant support for the conference.

Global Congress on Laser, Optics and Photonics (2022):

Linkin Science has successfully completed 4th Edition of Advancements on Lasers, Optics and Photonics as a Hybrid Conference during October 6-7, 2022. We thank all our expertise Scientific Committee Members and speakers who offered a constant support for the conference.

Global Congress on Laser, Optics and Photonics (2021):

Linkin Science has successfully completed 3rd Edition of Advancements of Lasers, Optics and Photonics as a Virtual Conference during September 01-02, 2021. We thank all our expertise Scientific Committee Members and speakers who offered a constant support for the conference.

Global Congress on Laser, Optics and Photonics (2020):

Linkin Science has successfully completed 2nd Global Congress on Laser, optics and photonics (Virtual On-line Meet) during September 02-04, 2020. We thank all our expertise Scientific Committee Members and speakers who offered a constant support for theconference.

Sponsorship/Exhibition $2500

Hybrid Conference on advancements of Lasers, Optics, Photonics & Expo 2024 provides an exciting opportunity to sponsor/exhibit your products to the broad international-audience.

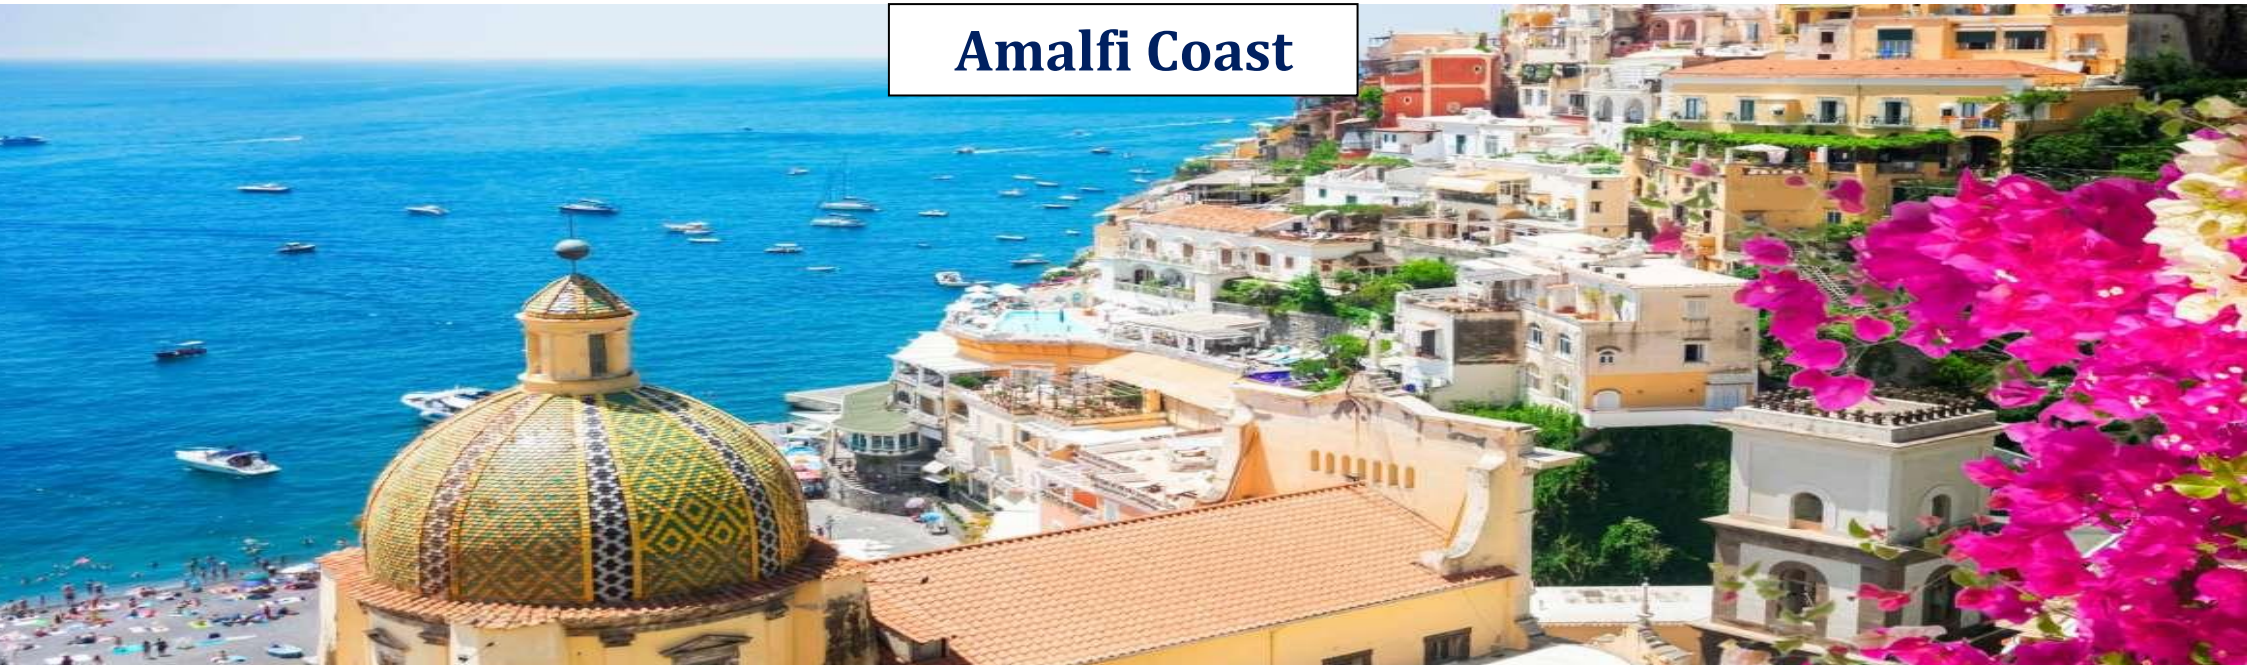
- The company/organization logo will be featured on the Conference website, program and promotional material Corporate logo on the front cover of the final proceedings
- Full page advert inside the conference book
- Logo recognition in pre-conference emails
- One post congress e-mail message to consented congress registrants up to 60 days after the congress (content to be provided by the sponsor)
- An exclusive online Promotion on all our Social Networking Sites.
- Recognition of your products and services in the world market through our website
- Develop new client relationships and strengthen through B2B Meeting
- Brand briefing at the opening and closing ceremonies
- 10% Waiver on Sponsorship for any of our next year Conference

Venue

Naples, Italy

About Naples

Naples – capital of the Italian region Campania and the third-largest municipality in Italy. Naples is one of the oldest continuously inhabited cities in the world. It lies on the west coast of the Italian peninsula, 120 miles (190 km) southeast of Rome. Naples has the fourth-largest urban economy in Italy, after Milan, Rome and Turin. It is the world's 103rd-richest city by purchasing power. The port of Naples is one of the most important in Europe, and has the world's second-highest level of passenger flow, after the port of Hong Kong. The "**Amalfi Coast"** is a stretch of coastline in southern Italy overlooking the Tyrrhenian Sea and the Gulf of Salerno. It is located south of the Sorrentine Peninsula and north of the Cilentan Coast. UNESCO listed coastline that is considered one of the most magnificent in the Mediterranean Sea. Dazzling landscapes and fascinating historic and cultural sights await along the stretch of coast between Positano and Vietri sul Mare, famous for its winding highway skirting dramatic cliffs thick with tiny villages and luxurious villas clinging to the rocky slopes and breathtaking views behind every curve.



Amalfi Coast
