### Costing

Mobile App Development	INR 2, 00, 000.00
Web Admin	INR 1, 50,000.00
Support & Maintenance (3 months)	FREE
Hosting Assistance	FREE
<b>Total</b>	<b>INR 3, 50,000.00</b> (Taxes Applicable)

### Client Dependencies

1. Logo
2. Hosting Server Credentials
3. Play Store and App Store Credentials
4. SMS Gateway
5. WhatsApp Gateway
6. Payment Gateway
7. Content

### Terms & Conditions

- This proposal is valid for 7 days only
- 50% of the payment is to be paid in advance and the balance 50% to be paid before delivery
- Credentials for play store and app store, payment gateway, email & SMS gateway, WhatsApp, Chatbot, etc. to be provided
- Technology stack

Front-end

Flutter

Back-end

PHP Laravel and MYSQL

- Once the scope is accepted, any additional assignments will be charged extra along with additional time-line
- Delay from client's side on approvals like design, functionality, interface, experience etc will not be considered on the timeline mentioned
- Third party integration like Payment Gateway, Google APIs, Google & Facebook Login functionality, Chatbot, WhatsApp etc., can be done only after moving the data to client's server
- In Content, basic content like Terms & Conditions, Disclaimer, FAQs etc. will be provided. additional content like 'About Us', Services & Product Descriptions, Blogs, Keywords etc. will be charged additionally.
- Initially the design will be shared as PDF or Jpeg format only, not in the html format. If required, APK version of the home page will cost 5k for each iteration.
- Delay in payments after completion of the site will attract 5% of interest per month.
- The timeline would be 60 days from the time the scope is approved and 50% payment is made.
